

EQUIPMENT MANUFACTURING

Turnkey Equipment Manufacturing Done Right.

■ JUST THE FACTS

Exceptional Equipment Manufacturing.

Single Source.

From parts to large assemblies, prototype to production volume, we provide specialty components and equipment from a single source.

Custom Equipment.

Custom engineered, built and tested on site, and delivered to your facility for installation – this is what we do.

Contract Manufacturing.

Proprietary equipment and critical components are produced in close partnership with our customers, ensuring quality every time.

Food | Pharmaceutical | Industrial | Vacuum

Production Line Stock Products.

Our **distributed product line** keeps your plant and systems running efficiently, with pumps, valves, sanitary hoses, and more.

“Thank you to your team! Both the customer and I were hugely impressed with everything from start to finish. The Factory Acceptance Testings (FATs) were some of the smoothest that I have experienced in 20 years. I look forward to working with you in the future.”

MARTIN KELLY | *Thermo Fisher*

Contract Build

Supplying turnkey proprietary equipment for manufacturers and OEMs, designed and fabricated for your requirements.

Design-Build Systems

Delivering unique engineering solutions that lead to custom, full-function systems.

Modular Skid Systems

Enjoy single-source responsibility for highly complex, customized skids that are fully integrated and tested.

Steam Ovens

Designed for efficiency and optimal product quality, while maximizing weight retention throughout the protein-cooking operation.

Controls and Panels

Built in-house, intuitive, and easy-to-use controls and panels are integrated into custom process systems to increase efficiencies.

Stainless Steel Fabrications

Custom-manufactured stainless steel assemblies are ideal for Food, Pharma, and other industries.
